

## Whatley Quarry

<b>PROJECT:</b>	Whatley Quarry
<b>CLIENT:</b>	Hanson Aggregate UK
<b>VALUE:</b>	
<b>AT-A-GLANCE:</b>	Full Load and Haul Services Limestone Quarry 5 years Contract

### PROJECT OUTLINE

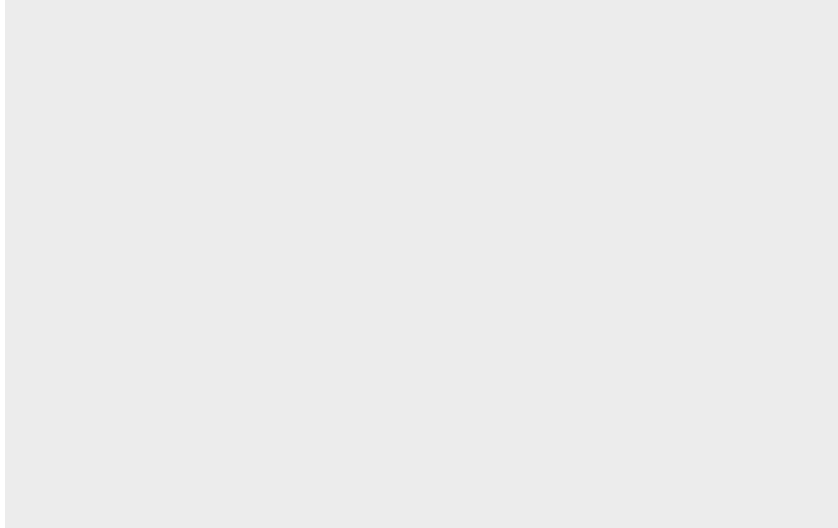

Whatley Quarry plays significant role in providing limestone not just into the local market but also into London by rail and to the Hinkley Power Station Project by road and rail

### PROJECT DELIVERY

The contract saw a significant investment by Walters Plant Hire with our partners at Caterpillar with core equipment being CAT 992 Loading Shovels, CAT 390 excavator, 777 Rigid Dump trucks and various smaller auxiliary equipment

The equipment is fully utilised to deliver more than 4.5 million tonnes per annum of limestone to the Client's primary crusher on a continuous choke feed basis over two shifts. Our site management team is fully integrated with our Client's Team and takes an active role in running the quarry operation.

## Whatley Quarry

### RETENTION EMPLOYEEE

The contract involved the smooth transfer of employees from the existing contractor under TUPE and the recruitment of new employees from the local area.

Through the commitment of Hanson and Walters to the contract our partnership has developed and grown in strength.
